

Android Device Email Setup Instructions

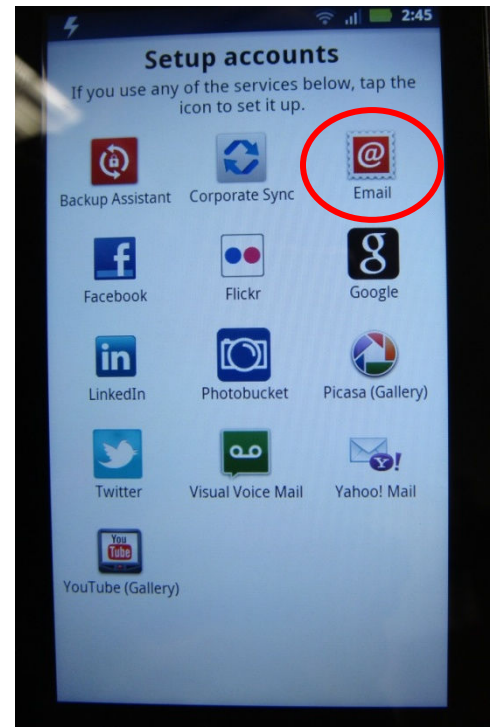

The following are instructions to setup your MVTW Wireless email in any **Android based** device.

Open Applications tray, select **My Accounts**

Select **Add Account**. You will be at the **Set-Up accounts** menu with several other social network icons.

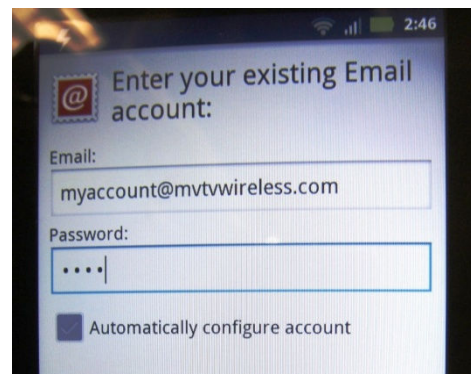

Select **Email** icon.

Enter your full email address.

Enter your email password.

Uncheck **Automatically configure account**.

Touch **General Settings**, confirm information in all General Settings fields are correct. Make any necessary changes, then select **OK** to exit this menu.

Touch **Incoming Server**.

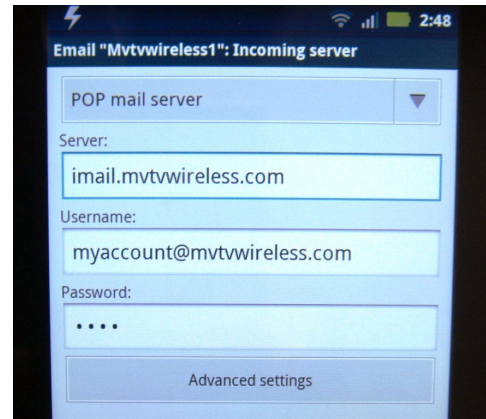

MVTV Wireless email is a **POP** account. Be sure to select **POP mail server**.

Server: change to say imail.mvtwireless.com

User Name: enter your email name without @mvtwireless.com

Password: enter your email password

Click **Ok** when done

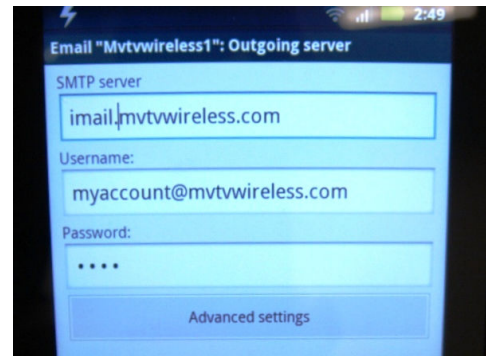

Select **Outgoing Server**

Server: change to say imail.mvtwireless.com

User Name: enter your email name without @mvtwireless.com

Password: enter your email password

Click **Ok** when done

Your account is now set-up. Please test sending and receiving an email.
