

# MVTV Wireless Hotspot Service

1. Connect wirelessly to the **MVTV Wireless Network**. If you don't immediately see MVTV listed, refresh your wireless settings. Click 'Connect'

2. Open a browser window and the following screen should appear.

(If not, go to [www.mvtvwireless.com/hotspot-users](http://www.mvtvwireless.com/hotspot-users))  
 3. Select 'Click here to Purchase MVTV Wireless'

[Click here to Purchase MVTV Wireless Internet Service](#)

[Click here For Your Account Status](#)

[Click here For More Information](#)

Please log on to use the internet hotspot service

4. Select service plan

Service name	Price
<a href="#">1-Month Service</a>	49.95 USD
<a href="#">24-Hour Service</a>	4.95 USD
<a href="#">3-Day Service</a>	8.95 USD
<a href="#">7-Day Service</a>	13.95 USD
<a href="#">Seasonal Summer Service</a>	175.00 USD

Language: English ▼

5. Enter your email address, cellphone and payment information

6. Transaction details screen will appear. Write down the user name and password.

7. Click on Hotspot login to begin using the internet.

8. Your purchased service time will start with your first log-in. Time countdown is continuous even when not in use. Once your service period has ended, you can repurchase a new package by logging into your account information.

**Please Note:**

- MVTV's hotspot service requires a log in on each device. All devices must have access to a web browser to log in properly. Hotspot supported devices include iPad/ Tablet, Desktop Computer, Laptop, and Smart Phone
- Two devices can be connected at the same time. You would need to set up another account in order to use two more devices.
